

XABREGAS

Xabregas produces the finest Great Southern cool-climate fruit which creates premium wines of exceptional elegance, sophistication and style.

Xabregas is synonymous with quality and value and has become a much sought after label, with demand outstripping supply.

With three stunning vineyards and a winery located at the foothills of the Porongurup Ranges, the winery's meticulously handcrafted wines encompass the regional characteristics of the Great Southern.

The winemaking team, led by Greg Jones, blends experience with the latest in technology to craft wines of true finesse.

Xabregas recognises the importance of wine technology and has invested in two world-renowned Ganimede fermenters which produce award-winning aromatic and softer red wines. The winery is committed to sustainable viticulture, having recently purchased a world first custom-designed harvester that produces low carbon emissions.

Xabregas has won many awards in local, national and international wine competitions and also received a five-star rating and the title of Best Mt Barker Winery in James Halliday's 2007 *Australian Wine Companion*.

Available in Australia and exported to the United States, UK, China and New Zealand, Xabregas has successfully established itself as a leading producer of exceptional Great Southern wines.
